When I succeeded Willett, I tound Watson in the office. I knew nothing about him, never hearing of his arrest until several years after, and as he was strongly recommended by the last breef text. L. Yaivee, I rectained him. And I will here state that so long as I knew, or and any observed the last so long as I knew, or and any observed the states that so long as I knew, or and any observed the states that so long as I knew, or and any observed the secretary there is not a lawyer in total city with whom he did business who would not corroborate that statement four assertion that he signed my bails is also have, a fact which the signed my bails is also have, a fact which the bails themselves (which you have, I benevey will clearly show. After first the office of Sherial and on the election of Matthew I. Brennah, as comprodier, I remommended Watson for the position of Auditor, to which he was appointed. At fact ring the duties of Auditor were comparatively immiportain, and the satary only \$1,500. After Comfolly succeeded brennah, Watson's pince was it danger. He appeared to me for my indicance to retain him, and I told him I had hone, which was the fact, and he has retained his pince, as a fact enterward told me, through the lindicace of William a. Tweed and Peter B. Swenn. As far as Tweed is concerned, it is absurd to allege any connivance on my part with min. It is notonous that Tweed was siways my chemy, and that I opposed him resolutely in every respect, both in and out of politics. Every one connected with pointies in the city of New York Knows that neither Tweed nor those associated with him ever had any irrendly feelings toward me.

The MAYORALTY NOMINATION.

In regard to my nomination for Mayor you are as unial and unjust as you are in every other Feapect. At that time my leadth was very healty broken down and I mad much sickness in my amily. I was urged very strongly to accept the nomination, my trends doing me the honor to believe that I was urged very strongly to accept the nomination, my trends doing m

spect. At that time my health was very hearly broken down and I and much sickness in my amily. I was urged very strongly to accept the momination, my irends doing me the honor to behave that I was the only person who could beat the Tanmany Ring, then in the beight or its power. Through my anxiety to see the Ring overthrown I allowed myself to be persuaded into accepting the nomination against the advice of my physician and my famay. The arist few days of the excitement of the caucas made such inroads upon my health that I was at once obliged to abandon everything and seek retirement, going to Europe as soon as my health would perfinit, where I was obliged to remain for over two years and a hab. Up to the time of my withdrawal as a candidate Mr. hall had not been nominated, nor would it have made any difference if he had. You speak of my calling myself alone. I am not in the habit or talking mount in the mount of the speak about it in the sense which you seek to convey. I do not know if you belone to any church; but it you do, and had consulted your own religious adviser in regard to the wicked and unjust charges you have made against me, I think that he would have strongly advised to have clacen a different course. I call your attention to the text, "Judge hot, that ye be not judged."

In conclusion I would state—not to you but to

have strongly advised you to have taken a different course. I call your attention to the text, "Judge not, that ye be not Judged."

In concussion I would state—not to you but to the public—Bat the embarrassments which I have been under in preparing answers to your charges have been very great, myself, my counsel and a number of assistants having been engaged upon the matter for day. What obsiness man is there who, II questioned in regard to the smallest details of matters involving charges of \$1 and extending throughout a term of six years, and going as far back as 180s, some of them aggregating but \$24 2s, would be able to give a satisfactory and clear explanation?

KELLY HAS HIS RECORDS.

see a explanation?

KELLY HAS HIS RECORDS.

Fortunately for me, however, I have kept my records well preserved, and I am prepared to meet you at all points. I have in my office the names of the parties whose conviction you say I did not return to the Secretary of State, to prove that I and. I have the names of the purors that summoned, but whom you say I did not. I have a list of the persons for whose conveyance I charged, and who you say hever were received, and I have vouchers for the money I collected from the county for the dispursements which you dispute. Having now made this explanation to the public, at the earnest possible moment, for the purpose of clearing my possible moment, for the purpose of clearing my character, I propose to stop. You and your as-sistant. Nelson J. Waterbury, have announced, character, I propose to stop. Fon and your assistant, Neison J. Waterbury, have announced, through the press, that you are preparing another similar attack upon me. I think I have demonstrated the faisity of your charges, so that what you may say hereafter will command even less attention from the public than you obtained for your original letter. I understand that you have been collecting from the Police courts the convictions during my term of office. These will establish that my term of office. These will establish that my tharges are in all respects correct—a fact which you have probably ascertained, as I am informed that you have suddenly stopped your labor in this direction. The public, however, demand that you shall publish what you have obtained, and I am only anxious you should do so it you will do it correctly. At all events I shall answer no more letters, but now nothly you that I shall, as soon as my counsel can prepare the papers, commence a sunt against you and Neison J. Waterbury for hoel, and subject you hold he impartial investigation betwee a swort jury, which I promised to do in my letter to the public published at the same time with your letter, and shall in those proceedings establish, beyond cavil published at the same thate with your letter, and small in those proceedings establish, beyond cavil or could, that white "the shadows of your years were becoming long in the west," by which I mier you mean that you are growing old, it is you, and not I, who, by publishing a series of miamous holes upon an innocent man have "closed your wreer finally in disnonor."

the tributaries between the month of the O River and New Orleans, reheving Major Merrill

To-day the new Police Justices are to change their respective sitting places. Since the advent their respective sitting places. Since the advent of warm weather little or no attention has been paid to the regular assignments, by which they regulated their movements, and as the distribution thus made has proved to be inconvention thus made has proved to be inconvention to several of the gentlemen a new change has been made. The assignments are as locations:—Judges Sherwood and Wandesh are to go to Essex Market, Judges Smith and Flammer are to preside at the Jefferson Market Court, Judges Otterbourg and Murray will see that justice is done in Yorkville, while Judges Bixby and Kiloreath will go to Harlem, which has the most egantly appointed court room in the county.

PREIGHT AGENTS' MONTHLY MEETING. Yesterday the regular monthly meeting of the general freight agents representing all of the principal lines of railroads in the country was held as the Metropolitan Hotel, for the purpose of producing voucners and balancing accounts—a sort of freight clearing nonse, before the repre-sentative agents disperse the New York Central Railroad Company will tender the party a trip around the harbor, that they may become person-ally acquainted with the various depoits for the reception and delivery of freight. The October meeting will be held in St. Louis, the November meeting in Bulkalo, the December meeting in Rochester. The meeting will continue its session

#### EPISCOPAL DIOCESAN CONVENTION.

The ninety-first session of the Diocesan Convention of the Protestant Episcopal Church of New York began its work yesterday, in St. John's church, Varick street. Eighteen ministers and two bishops took part in the services. Bishop Potter was assisted by the Right Rev. Dr. Tozer, of Zanzibar, who will be remembered in connection with the Evangelical Alliance meeting here hist year. The communion was administered and the delegates present participated largely in its benefits. The Rev. Dr. Fairbairn, of Annanoale, preached an excellent and practical sermon on the qualifications required for the Christian ministry, from II. Taessalomans, In., 1.

At the close of these services a recess was taken for lunch. When the Convention came together again the list of clerical and lay delegates was called over. Dr. Eigenbrodt was elected Secretary and Mr. E. F. Delancey Treasurer. Bishop Tozer was then introduced to the Convention and accorded a seat beside the presiding Bishop. Standing committees were appointed and applications were received from the Church of the Holy Trinity, Harlem, the Free Church of St. Mary the Virgin and St. Ignatius' church. The Committee on the incorporation and Admission of Churches recommended the admission of the Holy Trinity and St. Ignatus' courcaes, but against St. Mary. Mr. S. F. Nash therendon moved that the Convention disagree with the committee's report and admit this church also. A lively debate sprung up on this question, in which Mr. Nash, Secretary Fish, Rev. Dr. Beach. S. B. Ruggies and others participated. It appeared in the discussion and by the documents presented in the discussion and by the documents presented in connection with its application that St. Mary's church was organized under the law of 1854, not as a church, but as a society for providing free churches, it organized in 1805 and its 1811, 1872 and 1873 successively it applied for admission into the Convention, but was relased every time, because it never showed, by its papers, that it was legrany incorporated or that it was a Protestant Episcopal church, or indeed a church at all. And the committee having repeatedly indicated to its trustees these delects, and the Convention two years ago on the incorporation and Admission of Churches these detects, and the Convention two years ago having passed a canon designed especially to meet such cases, the committee and those who tavored its report how argued that for the same reasons its report how argued that for the same reasons as belief, still existing, this society should not be admitted. Indeed, it was not certain whether this Society of St. Mary was a churen or merely a building society. It was found among the papers, however, that the society or church, whichever it is, was recognized by the Bishop as a Protestant Episcopal churen, and that in two separate places in its application it pledges likeli to obey the canons or the Church and the rules of the Convention. And as it was deemed inconsistent to admit one rituanistic church and keep another out, St. Mary's was brought in also, after which the Convention adjourned until ten o'clock to-day.

#### DR. PUSEY ON THE POWER OF PRAYER.

Dr. Pusey has addressed a long letter to a society entitled the "English Catholic Union for Prayer." setting forth a series of objections to the Public Worship Regulation act. The evils of the measure are indicated in his second objection, viz., "its suggestiveness of discontent and litigation, putting into the minds of the people that
they have reason to be discontented, and teaching
ill conditioned people how to vent their own tempers as a matter of conscience." He deplores
that by the discussions which have attended the
passing of the act through Parlament people's
minds have been inshed into a most anhealthy excitement. He is thankful, however, that "oy God's
good Providence there are still ten months in
which they may be tranquilized." The audress
concludes with an exhortation to prayer for the
salety and good guidance of the Caurch and the
conversion of its persebutors. viz. "Its suggestiveness of discontent and Ltiga-

# LAYING OF A CORNER STONE.

Reminiscences of New York Over a Hundred Years Ago.

Yesterday afternoon at three o'clock very interes ing services took place at the laying of the corner stone of the Forsyth street Methodist Episcopal chured. A large number of the congregation and iriends of the old church assembled in the enclosure in front of the outlding (No. 10 Forsyth street). The proceedings were viewed with the liveliest interest by the denizens of the adjacent tenement houses, who crowded the windows and balconies and generally assisted in the services. Rev. Dr. Roache prayed very lervently for the weifars of the pastor, flock and church, and he was followed by the venerable Rev. Dr. J. B. Wakely, paster of St. Luke's church, who entertained his nearers with some historical reinfuscences of the old church, pre-acing his discourse by the beauti-lui lines commencing—

The perfect world by Adam trod was the disk temple built by God.

Dr. Wakely said that the first church built on the present site was in 1700, and that the seven lois were purchased for £350 current money of the State of New York, it was formerly the property of James Delancey, who was a tory, and had his lands co inscated. When the courch was finished Bishop Asbury wrote to the preactier, Mr. Morrell, saying that his work "graddened the hearts of the angels and the eyes of the courch." The courch was then out in the fields, and the people wondered who would ever worship there. In 1833 the courch was torn down, and a lew unimportant papers sound in the box lying in the corner stone. In the present corner stone some currency, a Bible, the daily papers and the contents of the old box while placed. During the proceedings it was Methodist saith were engaged throughout the country, and that the societies numbered 548,593 members. After some interesting remarks by the pastor and the Rev. J. W. Barnbart the services concluded with the singing of the doxology.

A FAMOUS RESTORER OF STRENGTH, VIGOR and energy, and a prompt and radical cure for General Debility and Weakness of young description, whether Mental, Physical or Newtoness of matter how aggravated the strength of the stre

TO THE PUBLIC. ASE FOR ALLCOCK'S POROUS PLASTER AND HAVE NO OTHERS.

See government stamp has printed on it, in white les-

ters, B. BRANDRETH. ALLCOCK'S POROUS PLASTERS, prepared by Porous Plaster Company, are commanding the attention of the world. This remedy applied to the spine produces sound, refreshing sleep when soportices, including merphine and hydrate of chloral have been administered to

the patient in vain. When we consider how much dyspapsia is occasioned by the want of sleep, how much the recuperative powers of the body are retarded from the same cause, we may easily comprehend the amazing benefit im

parted by the application of this Plaster. We warn the public against base imitations and brazen forgories o this admirable preparation.

Ask for ALLCOCK'S POROUS, and have no others. B. BRANDRETH,

President of the Porots Plaster Company.
